Mask Style

Follow these steps to create an Adhlal Graphical Device. Please ensure you follow our guidelines regarding use of our graphical device.

1. Draw two 3-point polygons from the structure

2. Overlap them so that the narrowest point of each of the polygons are opposite each other.

3. Intersect the polygons using the Pathfinder Divide tool.

4. Use as either an outline, solid shapes, or the foremost polygon as a mask for a graphic or photograph
